Some of America's Brightest Osteopathic Medical Students Are Becoming Its Brightest Doctors at Union Hospital

*How does a teaching hospital measure the
worth of its medical education program?*

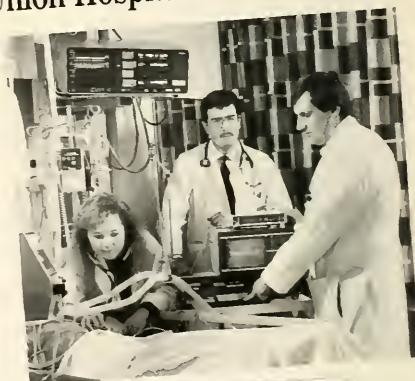

It is measured by its commitment to education... by the
expertise of its medical staff... and by its record of success
in the health care field.

Union Hospital's commitment to education is evidenced by
the key role its interns play on each physician's team. The
expertise of its medical staff ensures that the Hospital
maintains a high patient census, allowing interns to become
involved in direct patient management not only on the
medical floors, but also in the critical care areas. Union
Hospital's record of success means that interns and
residents are constantly exposed to innovation in
technology, patient care and health services.

With 18 approved internship positions, and a medical
education program consisting of 300 teaching beds, Union
Hospital invites you to shape your professional goals amid
the setting of a nationally-recognized community hospital.

Residency programs are provided in:

- Internal Medicine
- General Practice
- Emergency Medicine
- Proctology
- General Surgery
- Otolaryngology/Facial Plastic Surgery
